## SOURDOUGH PIZZA & FRESH PASTA MADE EXCLUSIVELY WITH ORGANIC SPELT FLOUR!

Looking back to the eating habits of past civilizations gives us insight into a more balanced and healthy way of life.

That's why we bring you the benefits of one of the most ancient grains, spelt, and one of the oldest traditional fermentation processes. 72-hour slow rising sourdough, into a modern day setting.

But we didn't stop there. We use organic local ingredients whenever possible! And let us tell you that's not a trend but a return to authentic tradition.

*You can now enjoy Italian food that tastes delicious and is better for you & the planet.*
