ORGANIC SPELT PIZZERIA

Farro's mission is to craft delicious food that brings joy to the moment, the people you share it with, and most importantly, makes you feel good!

We're inspired by the past, using the ancient grain spelt as the signature for all our slow-fermented sourdough pizzas and fresh pasta - bringing old-world tradition into today's world.

And we didn't stop there - we use organic, local ingredients whenever possible. For us, it's not just a trend - it's about celebrating authentic flavours and honest ingredients.

Now, you can enjoy Italian food without the guilt - just good vibes, great taste ... and simply FEEL GOOD!
